

Geography

The study of people and places - Year 2 Summer Term

Concept: Perception

Review

- Hot and cold areas of the world in relation to the equator and North and South pole.
- Name and locate the world's seven continents and five oceans.

Outcomes

- Compare a small area in UK (Llandudno) and small area in a contrasting non-European country (Egypt).
- Use maps to identify human and physical features.
- Describe the location of places using compass directions.

Enquiry

How has a place changed over time?
How does tourism impact the change of a place and what impact does this have?
