

Textiles

Year 1 Summer Term

Design Technology

What I already know?

- I have constructed a wheel and axel.
- I have designed a product to make it move.
- I have evaluated the product to decide what was good about it and what I could improve.

Vocabulary

Textiles	A type of cloth or woven fabric.
Fabric	cloth or other material produced by weaving or knitting fibres.
Cutting	The action of cutting something
Shaping	Give a particular shape or form to
Evaluate	Think about what well went and what could be improved
Product	An article or substance that is manufactured or refined for sale

Key Knowledge

I will look at the designs of Althea McNish to create a purposeful product

I will design my own product that is fit for purpose by cutting and shaping fabrics. (not joining materials)

I will evaluate the successfulness of my product to decide if it fit for purpose.

Connecting Concepts

Technical Knowledge 	<i>I will design and create a product that is fit for purpose</i>	Practical Knowledge 	<i>I will use materials to create a product that is used in the real world</i>
