

Geography

Year 6 Summer Term — Rainforests

Place

Thinking like a Geographer:

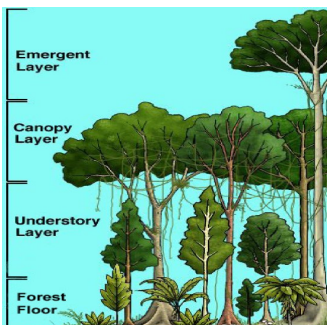

Maps & Fieldwork	Space	Scale	Interconnections	Environment & Sustainability
				

Enquiry/ Fieldwork

Who does the Amazon belong to and who should decide it's future? Should it be preserved or conserved? How can we protect the Amazon rainforest?

Essential Knowledge

- Describe and understand key aspects of the Amazon rainforest.
- Understand how this environment has changed over time.
- Describe the climate in the Amazon rainforest.
- Identify and label the layers of the Amazon rainforest.

Review

- Describe and understand key aspects of Biomes.
- Name and locate the world's seven continents and five oceans.

Key Vocabulary

Rainforest	A dense forest rich in biodiversity
Layers	A sheet covering a surface.
Environment	A particular geographical area.
Biodiversity	A variety of plants and animals
Conservation	Protect something from harm
Preserve	Maintain in its original state.
